DISABILITY CAN

Our Impact at a Glance

Last Updated: July, 2026

Top 10: Disability Can by the numbers

For 75 years, Disability Can (formerly March of Dimes Canada) has worked alongside people with disabilities to remove barriers and expand opportunities for independence, recovery, employment, and community participation across Canada.

Top 10: Disability Can by the numbers

1

30,000+ people supported each year across Canada.

2

6.1 million hours of home- and community-based care delivered annually.

3

2,500+ employees and 550 volunteers supporting programs nationwide.

4

$178 million invested annually in mission delivery.

5

5,500 people received accessibility devices, adaptations, or modifications.

6

2,300+ people received grants to improve the safety and accessibility of their homes and vehicles.

7

85% of Attendant Services clients surveyed say the services help them live more independently.

8

Over 15,000 people participated in national disability advocacy campaigns.

9

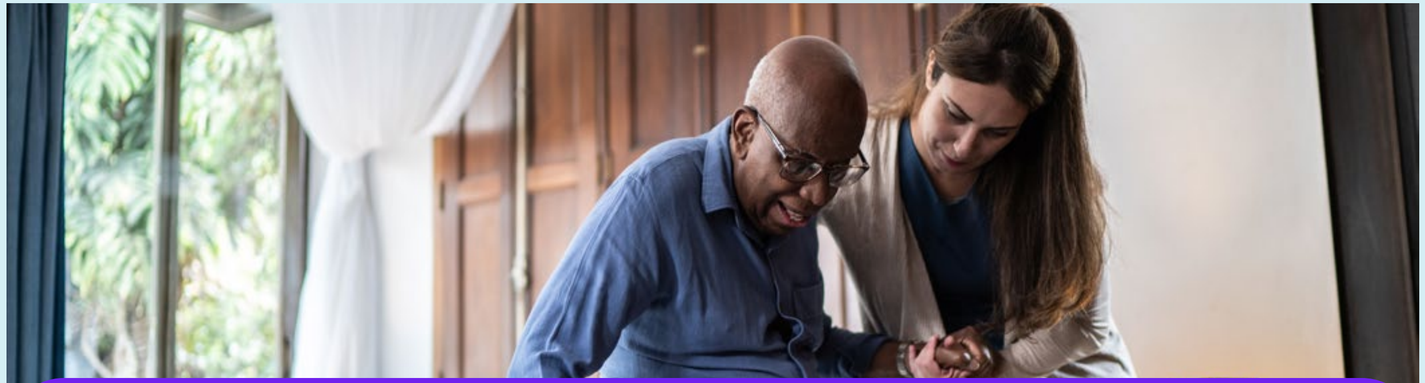

16,200 messages sent to elected officials supporting disability inclusion.

10

Over 370 members engaged in the Disability Advocacy Network.

OUR IMPACT

Home Supports and Daily Living

Supporting independence at home and in the community.

- 2,811 clients received assisted living, housekeeping and low-acuity support, and 1,767 received attendant services
- 95% of service users surveyed say home and vehicle modifications support a better quality of life
- 5,057 people received After Stroke services
- 569 home adaptations and devices provided through Safe and Healthy Home for Seniors
- 1,177 people accessed brain injury community services across six provinces
- 85% of service users surveyed rate their experience with our brain injury services as “good” or “great”

Skills and Employment

Helping people build skills and access fulfilling employment.

- 17,672 people accessed Skills Development and Employment Services
- 5,175 people received digital skills training
- 970 people secured employment through Disability Can programs
- 3,399 people from underserved populations accessed skills training and employment support

Child and Youth Development

Supporting children and youth with disabilities and their families.

- 218 children, 57 parents and caregivers, and 71 volunteers took part in Move Learn Grow
- 75% of families surveyed say they better understand their child's needs
- 88% of families say the program encourages children to play with peers

Community Connections

Building connection, advocacy, and collective action.

- 377 people participate in the Disability Advocacy Network
- 29 advocacy workshops and training sessions were delivered
- Over 15,000 people participated in disability advocacy campaigns nationwide
